MEMORANDUM OF UNDERSTANDING (MOU)

BETWEEN

ORGANIZATIONS A, B, C etc.,

Palliative Care Community Based Shared Care Outreach Teams

The Palliative Care Community Based Shared Care Outreach Teams model is part of an integrated service delivery approach that fosters inter-professional collaborative, patient-centred practice. These outreach teams are a proven-evidence based best-practice model.

Shared care involves primary care providers in a team partnership of care with expert clinicians who together share the care of the patient in an integrated and seamless manner. The teams are defined by population /geography. They provide:

- Consultation/education by specialist to primary care, building community capacity
- 24/7 access to specialist clinician support
- Crosses continuum of patient care settings
- Coordinated system navigation
- Standardized assessment, processes of referral, patient records, evaluation and documentation
- Locally driven partnerships with a consortium based governance model
- Customization at the local level with overall adherence to iterations of a shared care, consultative model

Teams typically consist of an expert Palliative Care Physician, a Nurse Practitioner (NP) or Clinical Nurse Specialist (CNS), a Psycho-Spiritual Clinician, a Bereavement Clinician, a Care Coordinator, working in conjunction with Primary Care and CCAC Palliative Care Case Managers.
